

SAURAV KUMAR

DevOps & Cloud Operations Engineer

Hyderabad, India • +91 7870532314 • bhumiharjee@gmail.com • linkedin.com/in/bhumiharjee • github.com/Bhumiharjee

SUMMARY

DevOps & Cloud Operations Engineer with 1.5+ years of production experience on GCP and Azure. Certified GCP Professional Cloud Architect and GCP Professional Cloud DevOps Engineer, with 10+ certifications spanning Azure AZ-500, AZ-700, and SC-200. Skilled in Terraform, Docker, Kubernetes (GKE/AKS), CI/CD automation, and SQL/PostgreSQL. Based in Hyderabad; open to DevOps, Cloud Engineer, and Cloud Operations roles.

TECHNICAL SKILLS

Cloud: GCP (Cloud SQL, Load Balancing, Cloud Functions, Pub/Sub, Artifact Registry, IAM) | Azure (ADF, AKS, Storage) | AWS — basic

Containers & IaC: Docker, Kubernetes (GKE/AKS), Terraform, Helm, YAML

CI/CD: Cloud Build, Azure DevOps, GitLab CI, GitHub Actions, SonarQube, Git

Databases: SQL, PostgreSQL, Cloud SQL — schema design, joins, normalization, query optimization

Networking & Security: Azure VNet, NSG, VPC, Cloud IAM/RBAC, Microsoft Sentinel, Defender for Cloud

Scripting & Monitoring: Python, Bash, PowerShell | Grafana, Prometheus, GCP Operations Suite, Site24x7, JIRA

WORK EXPERIENCE

Cloud Operations Engineer | Minfy Technologies

Sep 2024 – Present | Hyderabad

(AIMXD Platforms Pvt Ltd merged into Minfy via internal transfer, Apr 2026 — continuous tenure. Promoted from Intern to full-time Cloud Operations Engineer, Apr 2025.)

- ▶ Architect and manage production GCP infrastructure (Cloud SQL, Load Balancing, Cloud Storage, GKE) ensuring high availability across client environments.
- ▶ Design and operate CI/CD pipelines via Cloud Build and GitLab CI, automating build, test, and deployment for microservices.
- ▶ Write and optimize SQL/PostgreSQL queries for Cloud SQL databases, supporting schema design and data troubleshooting.
- ▶ Build serverless event-driven solutions using Cloud Functions integrated with Pub/Sub and Cloud Storage; manage Artifact Registry for Docker image versioning.
- ▶ Provision Azure Data Factory pipelines, storage accounts, and databases; author multi-stage Dockerfiles for consistent deployments.
- ▶ Configure Cloud IAM roles and monitor infrastructure health via GCP Operations Suite, Grafana, and Prometheus; automate ops tasks using Terraform, Bash, and Python.

DevOps Engineer (Intern) | DevOps Insiders

Jul 2023 – Sep 2024 | Remote

- ▶ Managed cloud infrastructure on GCP, leveraging GKE for container orchestration and Cloud Storage for data management.
- ▶ Built CI/CD pipelines with GitLab, automating build, test, and deployment workflows for microservices.

CERTIFICATIONS

Google Cloud: Professional Cloud Architect (Mar 2026–Mar 2028) · Professional Cloud DevOps Engineer (Oct 2025–Oct 2027)

Microsoft Azure: Security Operations Analyst / SC-200 (Jun 2025–Jun 2026) · Network Engineer Associate / AZ-700 (Feb 2025–Mar 2027) · Security Engineer Associate / AZ-500 (Dec 2024–Dec 2026) · Azure, AI & Power Platform Fundamentals (2022)

KEY PROJECTS

- ▶ GitLab Runner Automated Setup: Automated GitLab Runner deployment on Ubuntu via shell scripts, eliminating manual setup across environments.
- ▶ GCP Production Infrastructure: Provisioned GKE clusters, Cloud Storage lifecycle policies, and Cloud Load Balancing for a retail client; managed Terraform IaC.
- ▶ Docker Compose + Traefik Reverse Proxy: Production multi-container setup with automated Let's Encrypt SSL and routing across frontend, backend, and PostgreSQL services.

EDUCATION

Master of Computer Applications (MCA) Chandigarh University | 2021 – 2023 | Grade: A++

Bachelor of Computer Applications (BCA) Maharishi Dayanand University (MDU) | 2018 – 2021 | Grade: A+
